# ABOUT TEMPLAR PROTECTION

Global excellence in Risk Management: Dedicated, Professional, Reliable

**Templar Protection** is a bespoke risk management consultancy based in the United Kingdom, operating globally. We specialise in providing expert advice, strategic guidance, and high-level protection to tier-one clientele worldwide.

What sets us apart is our selective approach. We intentionally limit the number of clients we support to ensuring that each receives the undivided attention they deserve. This enables us to maintain our commitment to excellence, delivering tailored solutions that address the unique needs of each client. Discretion is at the heart of our operations, we understand the importance of confidentiality and ensure that our clients' privacy and security are always protected.

With a niche portfolio, we are able to offer around the clock support, ensuring our resources and expertise are always readily available. This focused approach allows us to respond swiftly to emerging risks and provide on-going, tailored support for our clients.

Our team brings a wealth of operational experience, having worked extensively within both government and the private sector. This diverse background has enabled us to build a vast network of assets and resources across the globe, positioning us to effectively advise and protect clients in increasingly dynamic and unpredictable environments.

We take a proactive, client-centric approach, constantly evolving our strategies to meet the ever-changing landscape of risks our client face.

“Exclusive Security,  
Expertly Designed”
